

SUPPORT WALTERS FAMILY SCHOOL OF TAEKWONDO CIC

We are a not-for-profit organisation structured as a community interest company limited by guarantee. This means that we are governed by a board and any profits generated are put back in to our club and it's projects.

We rely on the support of our members and volunteers as well as small grants and partnership work within the local community. Without this our club would not be able to maintain our full-time dojang and achieve our social aims.

If you/your organisation can support us in any way or would like to work in partnership with us in achieving our aims together, we look forward to hearing from you.

We are always in need of support with the following: Board/structural governance, funding applications, project management, marketing and media, coaching, and day-to-day operations.
